# IrisBG Collection Management

– founded and developed by Compositae AS

**1996** First version created by Øyvind Rustan for Oslo Botanical Garden.

**2004-2019** IrisBG is distributed by Compositae, Digital Forvaltning and Botanical Software.

**2020** Compositae takes over full worldwide distribution.

**2020** Mari Rustan joins IrisBG full-time as the Marketing- and Product Manager

**NOW** A fully featured collection management system for botanical gardens, arboreta and private estates worldwide.

# Version 4

## – Feature highlight

Numerous improvements have been introduced in version 4 – here's a few

### **Task Scheduler (Utilities group)**

Enables you to automate tasks

---

#### **Increased functionality for Reports**

New search criteria and fields

#### **Data Import**

- New imports such as Stock Items
- Delete field content

#### **Funding upload to Web Explorer**

Visualize your donations

#### **E-documents for Accessions**

Allows for digital references

**Tip!** Always check the [version history](#) when upgrading.

# Version 4

– 3<sup>rd</sup> party data exchange

**IrisBG**  
Collection Management

Biodiversity  
Information  
Standards  
TDWG
